

MUCH DAMAGE DONE BY RUSHING WATER

FLOODS SPREAD DESTRUCTION IN THE WEST.

Curtis Lake, Near Curtis, Nebraska.
Breaks From Its Banks and Sweeps
Medicine Valley Bare of Houses and
Crops—Colorado Swept by Freshets
and Minnesota by Cyclones.

Curtis, Neb., June 3.—A torrent of roaring water swept down the Medicine valley in Frontier county, yesterday carrying death and destruction in its path. Curtis lake had burst its banks, and the accumulated drainage of thirty miles of territory rushed over hamlets and farmlands that lay in its path. It is believed several lives have been lost. Stockville, seven miles down the Medicine creek, which is the outlet of Curtis lake, has 250 inhabitants whose fate as yet is uncertain. The people at Cambridge, where the Medicine flows into the Republican river, are thought to be far enough away to escape death, although they may lose property. At this place a fine roller mill was destroyed and much railroad property damaged. The abundant rains that have visited Nebraska the last few days culminated in a terrific cloudburst that seemed to converge over the territory drained into Curtis lake. Soon after the downpour began the lake began to rise. In a short time back water found its way into the canyon that acts as a conduit to the lake. A stout dam which closes the outlet end of the body of water affords power for a big roller mill, that stands now a ruin on the east bank. This dam, which was re-enforced by a railway crossing of the Burlington & Missouri in Nebraska, soon began to show signs of weakness. The mill people did what they could to strengthen the dam and succeeded admirably until the cloudburst came.

A roaring sound in Wild canyon was the first warning note to the people in Curtis that a terrific danger impended. Messages were hastily sent to the people in the valley that a flood was about to come rolling in upon them. The Curtis people, terror-stricken, grabbed up what portable valuables they had and made a dash for places of safety. But the utmost concern was felt for the dwellers farther down the valley. When the accumulated water from the cloudburst struck Curtis lake the mass of liquid surged mightily against the dam timbers. They stood the pressure for a moment and then gave way. First the Burlington & Missouri railroad grade was dashed aside. Four of the five yard tracks in addition to the main line were torn and twisted. A train of freight cars swung into the flood and went swimming down stream end over end and swirling from side to side like bits of lath.

In cutting its way past the dam the torrent made a breach in the embankment one hundred feet across and twenty-five feet deep. The mill shook and trembled on its strong foundation, but it withstood the fury of the torrent for three hours before it began to give way. Reports coming in from the farms below all tell one story—ruin and desolation and loss of live stock. There are yet no records of any human life lost. A farmer who came in last night from down the valley says the amount of damage done by the flood is immense. As no word comes from Stockville the gravest fears are entertained for the people in the place. Many here say openly they expect to learn that the town has suffered a serious and perhaps appalling loss of life. The loss here to the railway will reach \$30,000. The mill property is worth \$20,000.

FLOODS IN COLORADO.

Heavy Rainstorms of the Past Few Days Cause Trouble.

Denver, Colo., June 3.—Colorado was visited by another drenching rain yesterday and considerable damage was done. Bear creek is out of its banks, and a portion of the public road is threatened, fruit at Florence has been damaged by hail and a cloudburst near Fort Collins washed out some of the big irrigating canals, and did great damage to crops. The plains country was drenched. Akron reports the prairie swimming deep, but the rain in that section will, on the whole, be beneficial. Hail fell so thick at Byers that a slight panic occurred in the Sunday school, and glass was broken all over town.

TORNADO IN MINNESOTA.

Several Towns Flooded and Railroad Tracks Washed Away.

St. Paul, Minn., June 3.—A tornado and waterspout swept over southeastern Minnesota Sunday night, doing great damage at Faribault, Zumbrota, and other points. The tracks of the Chicago, Milwaukee and St. Paul road were washed so badly around Hastings that trains had to enter St. Paul via Farmington. At Faribault Henry Olfman was almost drowned. At Zumbrota all the buildings at the fair grounds were blown down. E. T. Halbert's mill was unroofed, the Standard Oil company's house torn to pieces, and a church lifted from its foundation. A team, driver, and wagon were blown over a wire fence and deposited in a creek. Hundreds of birds were killed by hail and great damage was done to crops.

Killed by Lightning.

Scranton, Pa., June 3.—A heavy rainstorm which passed over this city late yesterday afternoon was accompanied by a small cyclone, covering a strip of about six blocks. Several houses were badly damaged, out-houses destroyed, and two barns were blown over, one being carried by the high wind fully 100 yards. While the storm was at its height lightning struck a house in which Mr. and Mrs. John Gerrity and her brother were seated about a table. The husband was not harmed, the brother was stunned, and Mrs. Gerrity

was so badly shocked that she died in five minutes.

Fear for Bridges.

Blue Hills, Neb., June 3.—A cloudburst, accompanied by heavy wind, visited this section last evening. So great was the fall of water that the streets ran like rivers and several feet of railroad track were washed away. It is feared that Burlington and Missouri bridges have gone out and section men are patrolling the tracks. The wind was strong enough to overturn two or three houses. So far as known no one was injured.

Three Reported Killed.

McCook, Neb., June 3.—Word has been received here that the train sent out from here yesterday to crib up washouts east of McCook has gone into a washout between Edison and Oxford and a number of men are injured. Latest reports are that three men were killed, the engineer, fireman and brakeman. One of the train crew was fatally injured.

Blows Down a Church.

Woodsville, N. H., June 3.—The most terrific gale and hailstorm ever seen in this section passed through the town of Bethlehem last evening. The new Catholic church was blown flat. Every house in the town suffered the loss of its windows on the north side. Barns and bridges were unroofed, and trees were torn up by the roots.

Cyclone in Kansas.

Kansas City, Mo., June 3.—The village of Riley, Kan., on the Rock Island road, twenty miles north of Manhattan, was visited by a storm of a cyclone character yesterday. Half a dozen houses were blown down and the railway water tank, but no loss of life is reported.

SUFFER WITH THE HEAT.

Sultry Weather Reported All Over the Country.

Chicago, June 3.—Yesterday the mercury began to jump upward and continued to climb the tube until it reached 92 deg. The police report many fatal prostrations due to the heat yesterday. New York, June 3.—At 4 o'clock yesterday afternoon the mercury went up to 94 deg., but from that hour it got gradually cooler. There were but few persons overcome by heat.

Moweaqua, Ill., June 3.—The thermometer registered 102 deg. here yesterday. No rain has fallen in this section for four weeks. Wheat is all plowed up and the land planted in corn. Hayfields are burned to the roots. Oats will not make half a crop and young corn is suffering badly for rain. The same intense heat was experienced all over the state.

Indianapolis, Ind., June 3.—The temperature was 90 at 7 o'clock yesterday morning, 97 at 1 p. m. and 90 at 7 p. m. Philadelphia, Pa., June 3.—The hot spell in this city and vicinity continues without perceptible abatement. At 8 o'clock yesterday morning the temperature was 86 deg. and it rose steadily until a maximum of 95 was reached at the signal service bureau at 2:15 p. m. On the surface nearly all day it was close to 100.

Savannah, Ga., June 3.—Yesterday was one of the hottest days ever known in June in the Savannah district. At Millen the temperature reached 104 deg. by the official weather bureau report and private advices from other points show similar temperatures. In Savannah the maximum was 98 and for the greater part of the day was over 90.

Venezuela Shows Her Teeth.

New York, June 3.—Important official news regarding the controversy between New England and Venezuela has reached this city. Referring to the boundary controversy, the "yellow book" officially calls attention that the congress of the United States had done its utmost to bring the question to arbitration; in fact, has even gone so far as to request England to settle the dispute this way. The report closes with these words: "The English have not advanced one step in the controversy, and it is impossible for them to do so without having a collision with the Venezuelan authorities."

Maximum Law to Be Attacked.

Lincoln, Neb., June 3.—Attorney General Churchill has left for St. Paul, Minn., where he will present argument before the federal court of appeals in the long-pending maximum rate law. The law was passed by the legislature over four years ago, and a few months ago was declared unconstitutional by the federal court for the district of Nebraska, Justice Brewer sitting. The state has appealed the case.

Condemns Supreme Court.

Springfield, Ill., June 3.—Gov. John P. Altgeld is of the belief that the United States Supreme court has established a dangerous precedent in consigning Eugene V. Debs and his friends to jail. He expressed himself in a very caustic manner yesterday regarding the decision and accuses the court of trampling on the rights of the people and accuses it of being the tool of monopoly.

Monument for Jefferson Davis.

Richmond, Va., June 3.—Today being the anniversary of the birth of Jefferson Davis, Hon. J. Taylor Ellison, president of the Jefferson Davis Monument association, has appointed a committee of thirty-two to canvass the city for funds for the Davis monument to be erected here. It is expected that a similar canvass will be made of the cities throughout the south.

Senator George Critically Ill.

Washington, June 3.—Information is received that Senator George is critically ill at his home in Carrollton, Miss., and not expected to live. Mr. George is chairman of the committee on agriculture, and is also a member of the judiciary committee. He has been a member of the United States senate since March 4, 1881.

Fargo, S. D., June 3.—Eugene V.

Debs addressed an American Railway Union meeting last night. He then left for Chicago to commence serving his

INDIANA BROTHERS SLAY EACH OTHER

BOTH ARE DEAD AFTER A BLOODY FIGHT.

**Horse Trade Caused a Fearful Tragedy
at Little, Pike County—St. Paul
Negro Left Half Lymphed—Bloody
Duel at a Trial—Other Criminal
News.**

Indianapolis, Ind., June 3.—A horse trade between Albert and Hawkins Deball, brothers, living at Little, Pike county, which took place years ago, led to a street fight between the brothers, in which both were badly wounded, and four persons, including one woman, were dangerously injured. The brothers met on the street between 9 and 10 o'clock, and without exchanging a word began to fire at each other. The first shot from Hawkins' gun filled Albert's breast and arms with shot. He returned the fire and a ball from his revolver struck his brother in the left eye, but penetrated only a short distance. A second shot struck Jackson Crow in the arm, breaking the bone. A third shot struck George Saunders, making a flesh wound in the leg. A second shot from Hawkins' gun, missed its aim and John Hawkins and Miss Stanfield were both slightly injured by the scattering shot. Both the Deballs will die. The injuries to the others are not serious, as the bullets and shot that struck them were mostly spent.

NOOSE AROUND HIS NECK.

St. Paul Negro Has a Narrow Escape from Mob Violence.

St. Paul, Minn., June 3.—Ambrose Osborne, a negro, narrowly escaped lynching at daylight yesterday. Osborne, who is from Tennessee and 28 years old, entered the home of the Ketchell sisters, Maggie, Frieda and Annie, aged 23, 18 and 15 years respectively, at 1059 Iglehart street, and assaulted Frieda. The girl screamed and the brute seized her and Maggie by the throat and held them. Annie escaped to the street and gave the alarm. Anton Ketchell, a brother living next door, was the first to hear the child's cry of distress, and ran out and caught the negro. When he was taken back to the home of the girls the whole neighborhood was aroused and in a frenzy. Somebody cried "Hang him!" and a rope was secured. The negro confessed and was quickly swung to the limb of a tree. At this point Anton Ketchell interposed and advised the mob to let the law take its course. At this the negro was taken down and carried to the Rondo street station. He will be taken before one of the judges of the district court to-day, and, having confessed, will be sentenced to Stillwater for from twenty to twenty-five years.

Bloody Duel at a Trial.

Houston, Tex., June 3.—During a trial in a justice court at Snyder Springs, Van Zandt county, Saturday the principles in the case engaged in a bloody duel with pistols, in which one man was killed, two fatally wounded, and another dangerously hurt. Dickson, the defendant, was killed. One of his sons badly wounded, and Chapman, the other party to the suit, and a man named Dean are now dying from their injuries. The other three sons of Dickson escaped and are being pursued by officers to prevent further trouble. The whole country is aroused and further trouble is expected when the Dicksons are captured.

Fleishch Indiana Crime.

Laporte, Ind., June 3.—Details of the alleged fleishch crime of a man named Zerby, living near Bristol, Elkhart county, have just come to light. A 7-year-old niece lived with Zerby and his wife. One night recently the child was assaulted by Zerby, and after being beaten into insensibility was carried a mile north of Zerby's home and thrown into a ditch to die. The child was found early in the morning. There is little hope of her recovery. Mob violence is feared.

Killed by His Wife.

Washington, June 3.—John Harmon was shot and instantly killed by his wife about five miles from Fairfax Courthouse, Va., yesterday. The couple had separated some time ago and the murdered man went to the house where his wife was living, and on being refused admittance attempted to climb in a window. The woman then picked up a shotgun and killed him. She surrendered.

Foul Play Suspected.

Belleville, Ill., June 3.—Andrew Jung, a wealthy man of this city, left home Saturday night and has not since been heard from. His hat and pistol were found on the deck of a river excursion steamer. He had a large amount of money with him, and the police think he was murdered and thrown into the river. Two negroes who found the hat and gun are under arrest.

Murder at St. Louis.

St. Louis, June 3.—Joseph Ketchum, a watchman in the Missouri Pacific yards, shot and killed Edward Lorenz yesterday. Lorenz and some companions refused to vacate a passenger car, where they were carousing, and attacked Ketchum, who was badly beaten, when the shooting occurred. Ketchum is a city hospital prisoner.

Olney for Gresham's Place.

Washington, June 3.—President Cleveland hopes to be able to go with his family to Buzzard's Bay during the present week. The impression is still strong that Attorney General Olney will fill the vacancy in the state department. If Mr. Olney should be named as secretary of state, it is not at all unlikely that First Assistant Secretary Edwin F. Uhl will succeed him as attorney general.

SULTAN IS HUMBLE AND BEGS PARDON

HE EXPRESSES HIS MOST PRO- FOUND REGRET.

Offenders Against the Lives and Property of Foreign Envoys Will Be Punished—England Lost an Opportunity—Argentina Seeks a War—General News by Cable.

Constantinople, June 3.—The Sultan has undertaken to reply to the proposition of the powers regarding reforms in Armenia before the feast of Bairam, the powers having declined to entertain a proposal to have his answer deferred until after that period. Reports from Erzerum are to the effect that Armenians are still being persecuted.

The Sultan has sent his private secretary to the English, French, and Russian ambassadors here to express his profound regret at the Jeddah outrage, and to inform the ambassadors that the offenders shall be court-martialed and punished. Ten Bedouins have already been arrested, but it is feared that it will be difficult to discover the real offenders, as the event happened at twilight.

LOST AN OPPORTUNITY.

How England Might Have Collected Nicaragua's Indemnity.

Managua, Nicaragua, May 18.—If the British had occupied Corinto a little longer than they did they would have been able to capture a British steamer, the Debay, which arrived there two days ago loaded with a full supply of modern, improved field artillery, rifles, equipments and ammunition, for about 5,000 officers and soldiers of the Nicaraguan army, and Admiral Stephenson would thus have been able to collect the \$15,500 claimed by Great Britain as an indemnity from Nicaragua without any difficulty. Nobody here doubts that had the British admiral captured this supply of war material and satisfied Great Britain's claim against Nicaragua by its sale, that the act would have so thoroughly humiliated the present government of Nicaragua as to have caused its overthrow at once by a revolution.

Argentina Seeks a War.

Washington, June 3.—Reports from the Argentine Republic show that there is an active war party which is agitating the prospect of a war with Chili. The Argentine boundary commissioners have returned from Chili and reported satisfactory progress, but the Argentine press keeps up the talk of war. The national guard is arming and drilling, and officers have been dispatched to Europe to purchase armament. A loan of \$30,000,000 is being considered to meet possible war expenditures. A report from Rosano states that a popular outbreak is imminent.

Republic Is Not Popular.

Hong Kong, June 3.—The Formosan republic is not popular and is clearly only an official movement, having no connection with the southern agitation. H. M. S. Redbreast and the German gunboat Ilia are inside the Tamsui harbor to protect foreigners. Active preparations are making at Tai Pei Fu to resist the Japanese advance from Ke Lung. Resident foreigners believe that the Chinese will not defend their splendid fortifications.

Ministerialists in the Lead.

Rome, June 3.—In the fifty-two districts re-ballots were had yesterday to elect members of the chamber of deputies; the result was the election of thirty ministerialists and twenty-two of the opposition, including three socialists.

FIGURE OUT THE DEFICIT.

Treasury Officials Claim It Will Not Exceed \$44,000,000 July 1.

Washington, June 3.—Treasury officials are now confident that the close of the fiscal year one month hence will show a deficit of not more than \$44,000,000, and possibly not more than \$43,000,000, which is at least \$5,000,000 less than was predicted only a few weeks ago and \$3,000,000 or \$4,000,000 less than the present figures. The month of July, however, is likely to see the deficit increased by at least \$10,000,000, as that month's interest payments will aggregate about \$7,000,000. Disbursements in every branch of the government are usually much heavier in July than in any other months, so that unless the receipts are greatly increased the deficit on Aug. 1 next will not likely fall much short of \$55,000,000 for the thirteen months.

Colima's Cargo Shifted.

Colon, Columbia, June 3.—Advices received here as to the manner of the wreck of the steamship Colima say that a heavy sea struck her and the large deckload of lumber and cargo shifted, the vessel being overturned. Bad stowage is reported to be the cause of the disaster. Twenty-one persons are reported saved and 195 lost.

Iowa Bank President a Speculator.

Pella, Iowa, June 3.—Ed R. Cassatt, president of the First National bank of this city, attempted to end his life yesterday. Mr. Cassatt had been speculating to a considerable extent on the Chicago board of trade and had suffered several heavy losses of late, one amounting to \$14,000 the first of last week. Depositors fear they will lose for several years, and up to a short time since was considered a safe business man, but family troubles and speculation have caused his downfall. The bank is closed.

Barrett Will Recover.

New York, June 3.—Justice Barrett, who was overcome by the heat and fell fainting from the chair while presiding at the trial of Police Inspector William McLaughlin in the court of oyer and terminer, will recover. The fainting was due to the stifling atmosphere of the court room.

ROBBERS RUN TO EARTH.

Three Clever Postoffice Thieves Capture in New York City.

New York, June 3.—The biggest and most daring series of postoffice robberies that has ever been perpetrated since the department was organized has just come to light. Three men have been arrested in this city. They are Joseph Killoran, Charles Allen and Harry Russell. They are held in \$5,000 bail each for examination on Monday.

The Scranton postoffice was robbed last August, during the absence of Postmaster Vanding and his assistant at the noon hour. The thieves entered the vault by the inner steel door and took away over \$8,300 worth of postage stamps in their original packages. On Dec. 3 the postoffice in Hoboken was entered during the absence of Postmaster Curran and \$6,561 worth of postage stamps were taken. On April 3 last the postoffice in Springfield, Ill., was robbed and upward of \$6,000 worth of postage stamps taken. In this case also there was no forcing of doors. It was sneak thieving, pure and simple.

"We know from our previous experience," said Inspector Holden, "when we began to investigate these cases, that there were only twelve men in the United States who could do this kind of work. They are scientific bank sneak thieves. We have been scouring the country for evidence and have spent five months in following various clues. The roundup became closer and closer until we finally identified Killoran, Allen and Russell as three of the postoffice thieves."

PRESIDENT DIAZ ILL.

Mexico's Executive Is Affected with Inflammation of the Eyes.

City of Mexico, June 3.—President Diaz is confined to his bed with a very serious inflammation of the eyes. Dr. Lopez, director of the medical college,

PRESIDENT DIAZ.

has made an exhaustive examination of the case and reports the condition of the president as threatening serious consequences. He has been confined to his bed for four days and his sight is greatly interfered with. No ministers or other visitors have been received in three days, and there is much apprehension among those fully acquainted with the gravity of the president's physical condition.

BAPTIST PUBLICATIONS.

Report of the American Society Presented at the Saratoga Meeting.

Saratoga, N. Y., June 3.—After the address of the president, the seventy-first annual report of the board of managers of the American Baptist Publication society was presented Saturday. The sales for 1894 were \$497,867; those for 1895, \$532,763. All other receipts amounted to \$19,949. Six thousand seven hundred and sixty dollars have been transferred from the profits of the publication department to the missionary department. In the missionary work of the society a deficit of \$3,368 is reported. This, added to the deficit last year, gives a total deficit in the missionary department of \$18,401.88. The entire amount received the past year for Bible work was \$15,242, and for missionary work \$112,608.78.

The annual amount received during the year for Bible work was \$1,242.84. To meet the needs of Bible work until Bible day, in November next, \$10,850 remains.

NEW LABOR LEAGUE.

Centralization of All Unions of the Country to Be Tried.

Pittsburg, Pa., June 3.—The first step in centralization here of all the labor unions of the country was taken last night at a meeting of 150 men and women in Knights of Labor hall. They formed the United Labor League of Western Pennsylvania. W. J. Smith, the head of the Flint Glass workers, was chosen president. After all the Western Pennsylvania unions are in it, it is expected to get the railroad associations. There will be no change asked in the present organization of the different unions, the new league being a general head, to which all will owe allegiance. Among the large bodies expected to be affiliated with the league are the Federation of Labor and the United Iron workers. Both are expected to locate their general headquarters in Pittsburg.

Harburg Fire Is Subdued.

Harburg, June 3.—The great petroleum fire which broke out at Harburg, six miles from here, at the works of the Bremen Trading company, destroyed five tanks of oil and a great deal of other property, has been mastered, although the inner tanks are still blazing. The damage done is estimated to amount to \$500,000. During the fire huge mounds of earth were thrown up around the burning tanks, thus preventing the flames from spreading to the adjoining factories and houses. The Guiser factory and the American company's petroleum depot were saved, as the wind drove the flames in the direction of the Elbe.

Insurgents Surrender.

Havana, June 3.—Word has been received from Guatemalaist, coagB.oo received from Guanatanamo of the surrender of forty-four insurgents, who had become dispirited after the action at Jobito, May 13, in which the insurgents under Maceo were defeated and Colonel Basch was killed. Captain General Martinez Campos has left Santiago in the direction of Havana.

COMMANDER SLAIN BY A LIEUTENANT

MADRID'S CAPTAIN GENERAL MURDERED TODAY.

Young Officer Shot Him Down in Cold Blood Because He Had Refused Him the Hand of His Daughter in Marriage—Affair Caused Great Excitement in the City.

Madrid, June 3.—A lieutenant in the army this morning shot and killed the captain general of Madrid, killing him instantly. The shot was fired upon the refusal of the captain general to accede to the lieutenant's request for the hand of the captain general's daughter. The murder caused intense excitement.

ALL READY TO TAKE THE STATE CENSUS

WORK WILL BEGIN ON THURSDAY, JUNE 20.

County Clerk McIntyre Has Received and Sent Out the Necessary Blanks and the Work Will Be Done Under the Charge of the City and Village Clerks.

The work of taking the census of Wisconsin and collecting vital agricultural, manufacturing and other statistics will be begun on the 20th day of June. The work is under the supervision of the secretary of state, but is done directly by the town, village and city clerks, who report to the county clerk, and he to the secretary of state, in whose office the returns are compiled into one report. County Clerk McIntyre has received from Secretary of state Cason a supply of schedules, forms, letters of instruction to enumerators and other blanks which he has transmitted to the town, city and village clerks of this county. These supplies include in part of 100 oaths of clerks as census takers, 2,700 enumeration of inhabitants, 650 enrollment of militia, 500 enumeration of ex-soldiers and sailors, 500 for agricultural statistics, 300 for manufacturing statistics, 100 instructions to census takers, 100 copies of the law, 300 returns of agricultural implements, number of cheese factories, creameries, etc., together with certificates, vouchers and many other necessary blanks. It is provided that duplicate copies of the enumeration of the inhabitants, enrollment of the militia and ex-soldiers and sailors and the various statistical lists, duly attested by county clerks, must be filed in the office of the secretary of state on or before August 20. All villages regularly incorporated under the statutes of the state, having a village organization will be listed by the clerks of such villages. If not incorporated, the town clerk will act as enumerator therefor, keeping separate from the town the list of inhabitants.

Duties of Clerks.

The town, city and village clerks and each of their assistants, must make an oath before entering upon the discharge of their duties that they will make a true and exact enumeration of all persons resident, and will faithfully collect all other statistics as required by law. In the performance of their sworn duties they must call at every dwelling house and by personal inquiry of the head of every family and of other persons ascertain the matters required to be ascertained and reported by them. This work must be completed on or before the first day of August, and a true and accurate enumeration delivered to the county clerk. Every person over twenty years of age who shall refuse to answer truly to the best of his ability any question which may be lawfully put to him by the clerk or census taker shall forfeit the sum of twenty-five dollars. Every county clerk, or assistant appointed, who shall neglect or refuse to perform the duties required of him in taking of returning the census, after having accepted such office or appointment, shall forfeit \$250.

Pay For The Work.

Persons appointed to take the census are allowed compensation for their services as follows. Clerks of cities and villages shall be paid at the rate of \$1.50 for every 100 persons enumerated, and the same for every 100 persons lawfully enrolled in the militia by them respectively, and the same for every 100 persons enumerated who served in the United States army or navy during the war. Town clerks and assistants appointed by the county clerks shall be paid at the rate of \$3.00 for every 100 persons enumerated by them, and \$1.50 for every 100 persons enrolled in the militia and the same for ex-soldiers and sailors. County clerks are also compensated for making returns to the secretary of state, and each clerk, assistant and county clerk shall receive in addition to compensation above 25 per cent of the amount thereof for the enumeration of the inhabitants and services in collecting and returning the statistics, which shall be in full of all services required of him under the provisions of the law. Forfeiture of 5 per cent of compensation is provided for when any clerk or his assistant fails to make his returns in time.

The secretary of state is directed to have printed 10,000 copies of the tabulated enumeration, fifty copies of which he is to deliver to each member of the legislature, one copy to each county, town, city and village clerk. He is also required to deposit with the superintendent of public property 1,000 copies for the use of the next legislature.

Sick headache, constipation and indigestion are quickly cured by De Witt's Little Early Risers, the famous little pills. C. D. Stevens.

AID FOR THE NEEDY STRIKERS.

Steamboat Excursion and Dance To Be Given—Meetings Held and in Prospect. Tomorrow evening, Captain Griffith, of the steamboat Mayflower, will give an excursion up the river, the proceeds to be donated to the needy cotton mill strikers, and the tickets are to be 25 cents. A dance will be given at Columbia hall, Thursday evening for the benefit of the aid fund, for which Smith's orchestra will furnish the music; tickets are 50 cents and the public is invited. The managers hope that each will be liberally patronized.

The employees still remain firm in their demands for a 10 per cent advance in wages as the condition for a return to work. This ultimatum is more than likely to close the factories for the summer. The operatives held a meeting in Central Labor hall Saturday evening, when it was resolved not to return until their demands were acceded to. Other labor unions will be consulted regarding the best course to pursue in the matter and the meeting appointed a special committee to consult with these unions, after which the meeting adjourned until 7:30 p. m., Wednesday, June 5. The aid committee will meet in Central Labor hall, on Tuesday afternoon at 2:30 o'clock.

COMMITTEE ON TEACHERS MEET

It Is Said That Few If Any Changes Will Be Made.

The committee on teachers of the board of education held a long session Saturday evening, preparing the list of teachers for the public schools for the ensuing year. While the committee met in the "star chamber" of the city hall, very little is known regarding the conclusions reached, but it is whispered that few if any changes will be made. The report will be made to the board this evening.

THE WOODCHUCKS ARE PLENTY

Rock County Farmers Complain of Them As a Nuisance.

The latest "pest" of the farmer is the woodchuck. These animals have become so thick on some farms that the farmers have turned out in squads to hunt them. Waite Wright who resides in the town of Janesville says they are plentiful in his locality and are being killed in large numbers. They are most troublesome in the clover fields.

THE NEWS OF WISCONSIN TOWNS

CHARLES NICHOLSON of Minneapolis, picked up an old man in the gutter, drunk and nearly dead. The kind act captured the old man's heart. He owned a farm, well stocked, fifty miles of Chippewa Falls, and offered to give Nicholson all he could make on it if he would go there and live. Nicholson accepted the offer and is now living on the farm.

JANESVILLE WHEELMEN TOOK MANY TRIPS YESTERDAY.

Delavan, Edgerton, Milton, Beloit and Other Cities Were Visited—Local Men Contribute to the Good Roads Improvement—Big Meeting Being Talked Of—Musical Club Formed.

When Will Pfennig and George Ford left last evening for Beloit, little did they think of meeting their superior in speed, but such was the case. When two miles out of town they met a supposed farmer on a wheel, who led them a merry chase into the Line City. Near Beloit the Farmer's wheel struck a stone throwing the rider heavily to the ground and breaking the handle bars off. On the return trip while descending a hill George Ford's wheel broke and he had the pleasure of walking a distance of five miles, arriving home at midnight.

Rode to Delavan

Five young men left the Arrow Cycling club house yesterday morning at 8 o'clock, bound for Delavan, and the twenty-three miles were covered in two and one half hours. After dinner they took a trip to the lake, where they were entertained by the Rockford Cycling club members, whom they met at that resort. They returned home by moonlight, the party being composed of Edas King, F. P. King, Charles Ellis, J. G. De Long and W. N. Connell.

Help The Good Roads Scheme.

The circular which was sent out by the Wisconsin Division of the L. A. W. on April 30, was responded to by local wheelmen very generously, and the donations have been more numerous than was at first expected. The money will be used for the improvement of the roads. The farmers are also taking a great deal of interest in the need of better highways, and such men as Governor Upham, Ex-Governor Fairchild are lending their aid.

A Musical Organization.

One of the latest moves in the ranks of the Arrow Cyclers is to organize a musical club with the following players. Piano—E. P. Hayward, Joseph Mahoney, Morgan Wise and George Dower. Mandolin—Mark Bostwick, C. T. Peirce, E. V. Whiton, Jr., R. H. Barlow, W. Ruder, Jr. and H. S. Haggart. Guitar—H. Church and C. Ellis. Banjo—J. G. DeLong, B. L. Watt, Elmer Powers and G. O. Ford.

To Meet in Madison.

A number of local cyclists expect to attend the bicycle meet which will be held at Madison on the afternoon of June 6. This meeting is for the purpose of holding and planning meetings for the principal cities in southern Wisconsin during the summer, and to make the different riders better acquainted.

Bridge Hard on Wheels.

A number of riders have broken their wheels crossing the Jackson street bridge. The structure has been repaired with planks which rise above the level of the bridge, and when a rider strikes one of these bumps at night, something has to give.

Will Ride to Rockford.

If the weather permits local wheelmen will take a trip to the Forest City next Sunday. The Rockford cyclists have sent them a special invitation for Sunday is the date of their annual picnic.

Many Have New Wheels.

New wheels are ridden by H. H. McKinney, C. H. Schaller, Allie Wheeler, Ross King, E. V. Whiton Jr., Henry Edwards, George D. Simpson, J. D. Fletcher, Al. Schaller and A. L. Tanberg.

Ran Into a Quarry.

While returning from a trip to Milton last evening, Elmer Powers and Morgan Wise both ran into a stone quarry, getting a fall that they will remember for some time to come.

Hold a Big Meeting Here.

Plans are now being made for one of the largest bicycle meets that Wisconsin has ever seen. It will be held in this city, in the near future.

Bloomered Girl's Ride Nights.

A number of first ward girls don their bloomers at night in order to get accustomed to them before their first appearance in public.

The Horsemen Complain.

Horsemen at the race track claim that cyclists are beginning to monopolize the track, to the detriment of the training business.

Rode to Edgerton.

Len Johnson and Charles Hodson took a spin to Edgerton yesterday and made the distance of fourteen miles in short order.

Buckboard Free.

We will sell a boy's or child's suit for about half price and throw in a buckboard. This is one of the greatest novelties for boys ever seen in the town. 150 of them, less twelve, which went out with twelve suits Saturday on display. This is our sacrifice season. We are endeavoring to sell \$25,000 worth of clothing for \$12,500.

THE TOWN TALK OF A DAY.

The unbroken regularity of the visits of Dr. Brewer, the celebrated physician, is at once the best evidence of his professional standing, and of his success in the treatment of disease. Those out of health we believe, can have implicit confidence in Dr. Brewer, and feel certain in consulting with him, that he is thoroughly educated, with years of experience in the treatment of chronic diseases exclusively. He will be for consultation on his next visit at the Park hotel on Monday, June 3.

REMEMBER we are keeping one hundred working people employed to make us shoes in Janesville. Let the laboring class remember this; and we are selling the same shoes for \$1 to \$1.50 less than the same shoes were ever sold at before, and will sell any shoe in our store for \$1.98. Take the best while you are here. Winslow & Lowell.

IMITATION is the sincerest flatterer. When our competitors ape us we think we are on the right track. When we name our price on a certain line of shoes and somebody tries to meet us with plunder, we are sure then that we are on somebody's sore corns. We always lead the trade. Brown Bros. & Lincoln.

We would like nothing better than to compare the Henney buggy with any other make made. The comparison has been made so often. For instance, at the county fairs, that it is almost useless now, as the Henney always carry's away the blue ribbons. F. A. Taylor.

REMEMBER we are the only shoe house that patronizes home factories. Help your own people. You can buy any shoe in our house for \$1.98. People selling at fifty cents on the dollar charge \$2.50 and \$3 for shoes. Remember your pick for \$1.98 at Winslow & Lowell.

WE are today showing the greatest line of parasols ever opened in this city. Black, white and colored. The most beautiful goods and at prices about one-half those of last year. See them in our large display window. Bort, Bailey & Co.

GOOD NIGHT'S WORK BY BELOIT POLICE

MARSHAL APPLEBY GETS ALLEGED BANK ROBBERS.

Four Men Hired a Team of a Line City Liveryman That Corresponded With the Rig Used By the Men Who Tried to Rob the Poplar Grove Institution.

Beloit, June 3.—[Special].—Two men of a party of four, who are believed to have attempted to rob the Poplar Grove bank, were captured by City Marshal Appleby on Sunday morning. The men engaged a rig at Murphy's livery stable, at Beloit, for the purpose of taking a drive. Marshal Appleby was suspicious and watched them until they disappeared over the line in Illinois. Sunday morning while watching for their return, he received a dispatch from Poplar Grove, stating that the bank there had been broken into and the burglars had escaped. The dispatch also described a rig in which they drove away, and just at daylight, the rig that had been hired the night previous was driven into the city by two of the tramps, their two companions having left it while still in Illinois. The Marshal arrested the men and they were turned over to Sheriff Smith of Boone county, Ill., today, going there without a requisition. The burglars secured no booty, having been scared away while drilling into the vault.

Ugly Tramps Corralled.

Out of a flock of fifty chickens Patsy Clarke now has but two left as the result of the visits of tramps from "The Willows." Sunday morning he was awakened by a noise in the vicinity of his chicken coop, and hastily dressed and rushed out, but the tramps coolly told him not to get excited or he would get hurt. Mr. Clarke went to the house to get a gun but when he returned the thieves had left. Mr. Tully was awakened by the noise and met three tramps with the chickens and made them give them up. The bums showed fight and while one struck at Tully the other two ran. Tully succeeded in holding one of the thieves and just at daylight Sunday morning marched him all the way to Rockton and turned him over to the authorities.

BUT ELEVEN INTERMENTS FOR MAY

Sexton Scott of Oak Hill Cemetery Makes His Monthly Report.

Oak Hill cemetery trustees held their regular monthly meeting on Saturday. No special business of interest was considered. Sexton Scott submitted his report giving the interments during the month of May. There were eleven interments during the month, eight being credited to the city, one unknown, (T. F. Wall, Boston, Mass., whose remains were afterwards exhumed and sent to that city,) one from Fond du Lac and one from the town of Janesville. The list is as follows:

May 1—Freddie Bennett, Janesville, aged seven years.
May 1—Martin Dewey, Janesville, aged eighty-two years.
May 2—Thomas McKee, Marinette, aged forty-three years.
May 2—Alexander Graham, Janesville, aged seventy-five years.
May 5—Lynda E. Robinson, Janesville, aged fifty-nine years.
May 7—Mrs. Henrietta Heath, Janesville, aged seventy-five years.
May 7—Miss Mary Hull, Fond du Lac, Wis., aged seventy-seven years.
May 9—Alfred Griswold, Janesville, aged forty-two years.
May 9—Mrs. Mary Stannard, Janesville, aged sixty-four years.
May 10—Mr. Ensign, Janesville, aged eighty years.

FASHIONABLE COLORS.

Flame Color For Warm Weather Bodices and Skirts.

Fawn and biscuit colors are great favorites for blouses, as they agree with all other colors, no matter how decided these may be. The newest of them is a most aggressive flame tint, partly orange, partly yellow and partly red. It is beautiful or the reverse according to the manner in which it is combined with other tints. A pronounced color is out of the question with it, but there are delicate dove tints, soft gray greens, creams and tones of ecru and ivory, which, in their gentleness, form a pleasing contrast to the fiery flame color.

This is a season of curious color combinations. Violet and geranium are often seen together, mauve and turquoise for garter, green and yellow are placed in conjunction, and blue and green are one of the very latest fancies.

Basques are not seen on round bodices this summer. The bodices are gathered at the waist under a draped girdle, a ribbon belt or a corset of a color contrasting with that of the gown. Short vests, similar to the Eton jacket, but reaching under the belt and opening in front in a manner to show a full chemise in plain surah, Indian foulard or mousseline de soie, are

HOUSE TOILET.

much worn and are seen not only in the same goods as the rest of the gown, but in applications of guipure. Antique guipure is a favorite trimming for skirts and bodices and is arranged in very fine ornamented forms—incrustations, quilles and insertion, besides shaped pieces for bodice accessories. This guipure is worn on house dresses as well as on formal toilets, and on reception gowns as well as on wraps. It may be had in black, brown, yellow and white and is always elegant and appropriate.

The sketch shows a house gown of campanula blue surah. The back is loose fitting, with round plaits starting downward from the waist. The front is full, the edges of the close portion being adorned with a border of silk embroidery. The tight sleeve is partly covered by two accordion plaited flounces and has a sort of shaped epaulet adorned with embroidery. The collar is of cream ribbon, which forms a cravat bow and is then carried down to the waist, where it is fastened in two loops with long ends.

NEW FASHIONS.

The Godet Even For Trained Skirts—Yellow Lace.

Fashions of the Henri Quatre period are to be revived this season. Its peculiarities are not of the tempting order. Its skirts are wide and full, its sleeves distended and fully slashed and the waists much whaleboned. It remains to be seen if women, to whose repertory of pastimes skating and bicycling are being rapidly added, will condone or condemn these faults and take kindly to the revival or simply ignore it. As to corseting, the great width of the fashionable skirt and its distension by means of wire and horsehair would seem to be a forewarning of its coming, and one wonders if faith in the common sense of wom-

SUMMER GOWN.

en in this particular would be misplaced. Surely not. They will not in these enlightened days willingly step into the hideous cages that belonged to an inartistic age and caused many a tragedy when they were worn.

The godet skirt is very much worn. Even trained skirts are made with godets, the wedding gown of a recent Parisian bride having immense godets. Of course the style is an exceedingly stiff one, but our eyes have become so accustomed to it that it now seems attractive.

There is great variety in fashionable costume now. Toilets of crepon plisse and surah glance go side by side with tailor made gowns, which have not sunk from the high esteem in which they have long been held.

Yellow is a decidedly fashionable color and is seen in all shades from straw to orange. Some of the lemon and buff tints, in printed and dotted muslins, are especially pleasing, and as trimming laces of all sorts, even valenciennes, are now to be had in yellow, it is possible to get up an extremely pretty yellow gown at small cost.

The illustration shows a costume the skirt of which is of white mousseline de soie with blue flowers and is slightly gathered at the waist. The blouse bodice is of turquoise glace silk and has a white ribbon belt tied behind. A fichu of white mousseline de soie with lace ruffles covers the shoulders. The balloon elbow sleeves are of silk.

TRUSTING WOMEN.

THEIR CONFIDENCE OFTEN LEADS TO SUFFERING.

An Ohio Woman's Experience, as Here Related, is Interesting to Every American Woman.

(SPECIAL TO OUR LADY READERS.)

It is a very sad fact that the more a woman trusts to the skill of her physician in treating her female complaints, the longer she is apt to suffer.

Lydia E. Pinkham fully realized this fact when she commenced that exhaustive study that has enabled the women of the world to help themselves. She discovered the source of female complaints, and produced the Vegetable Compound, which is their absolute cure.

When such testimony as the following is given, the woman who thinks should act quickly, and no longer permit herself to trust to incompetent doctors. The Vegetable Compound is sold by all druggists, and every woman should have it.

"The doctors had told me that unless I went to the hospital and had an operation performed I could not live. I had falling, enlargement, and ulceration of the womb.

"I was in constant misery all the time; my back ached; I was always tired. It was impossible for me to walk far or stand long at a time. I was surely a wreck. I decided that I would give your Compound and Sanative Wash a trial.

"I took three bottles of Lydia E. Pinkham's Vegetable Compound, and used two packages of Sanative Wash, and I am now almost well. I am stouter and healthier than I have ever been in my life. My friends and neighbors and the doctors are surprised at my rapid improvement. I have told them all what I have been taking."—MRS. ANNETTA BICKMEIER, Bellaire, Belmont Co., O.

THIS DAY IN HISTORY

1657—William Harvey, discoverer of the circulation of the blood, died; born 1578.
 1780—Thomas Hutchinson, noted as a royal governor of Massachusetts, died in London; born in Boston 1711. Hutchinson was governor during the taxation troubles, and although a native of the colony and a graduate of Harvard he opposed every act aiming at self government and supported the arbitrary measures of parliament. In retaliation his mansion was twice sacked, and after the "tea party," in 1773, he "obtained his majesty's leave to return to England."
 1806—Jefferson Davis was born in Christian (now Todd) county, Ky.; died 1889.
 1861—Stephen Arnold Douglas died in Chicago; born 1813.
 1870—Baron Lionel Nathan de Rothschild, head of the great banking house and member of the house of commons, died in London; born 1808.
 1880—Storms devastated wide tracts in the west.

CAPITAL AND MONEY.

The class of people who are clamorous for more money, and who believe that times would improve, if the free coinage of silver was adopted, fail to distinguish between capital and money. The farmer who has 160 acres of well improved land, well stocked, and surrounded with valuable personal property may not have a bank account at all, neither is it necessary for him to carry around a pocket full of coin, or a roll of currency; he knows, and his neighbors know, that he is worth from ten to twenty thousand dollars, the amount depending largely upon his location.

The small amount of money that he requires is readily realized at any time from the products of the farm, and the money that he actually uses during the year averages less than 5 per cent of the capital he represents. The capital of the country is about \$70,000,000,000. The circulating medium, or money, in gold, silver and currency is about one and a half billion dollars. The ratio as compared with the capital is a trifle over 2 per cent. When this money is kept in circulation by the demands of business it is ample for every requirement. When it is withdrawn from circulation as it was in 1893 and locked up in vaults, or laid away in stockpiles, a scarcity of money very naturally follows. Under these conditions the quantity of money would in no way relieve the stringency. In fact it would only add to the trouble. Keep the quality good, maintain public confidence, and the quantity will always take care of itself. The volume of business as compared with the wealth of the country is far ahead of the seventy-billion capital. The man who invests \$25,000 in mercantile business is soon crowded out of the channels of trade if his annual sales are not double or triple the amount of capital invested, and yet he finds the circulating medium ample for all business requirements. If he is prudent and adds to his wealth year by year the surplus does not lie idle, but is invested in more goods, and in time he has a capital of \$50,000 invested; but during the years of accumulation, he has had no occasion to complain of a shortage of money. The same experience is true of the successful farmer. The men who want more money are the men who fail to make money, and this class of men seem to think that the government can in some way help them out by manufacturing a larger supply. The theory is wrong, and the experiment if ever tried, will prove disastrous.

Appropriations of various kinds are being held back under one pretext and another, until after July 1, so that the administration may make the most favorable show possible.

Forsaker appears to have things all his own way in Ohio, but McKinley professes to be satisfied with the deal.

The weather bureau is all at sea, since Mr. Moody's experience with the elements in Texas.

YESTERDAY A GREAT CREAM DAY

Dealers and Manufacturers Couldn't Get It Fast Enough.

If Janesville people ever had a craving for ice cream it must have been yesterday for the demand for cream was far in excess of the supply. The stock in the different restaurants began to run short at 4 o'clock in the afternoon and the factories could not turn the frozen article out fast enough. The price ranged all the way from twenty cents up to forty cents a quart and a local manufacturer estimates that at least 120 gallons was sold in the city besides what was made and sold at home.

L. T. RICHARDSON TO GRADUATE

Janesville Man Finishes His Term at West Point Military School.

Lorrain Thompson Richardson, son of Hon. and Mrs. Hamilton Richardson, is in the graduating class at West Point this year and the annual examination of the cadets began on June 1. The competition among the students is unusually sharp this year, because there are not enough vacancies in the army for the fifty-two members of the graduating class and the appointments to the coveted second lieutenantships will be made according to rank in scholarship.

THE JOURNEY OF LIFE IS ENDED

Miss Carrie Larson.

Miss Carrie Larson died at 7:15 o'clock Sunday morning, at her home, 204 School street, after a long and painful illness, and the funeral will be held from the Norwegian Evangelical church at 2 o'clock Tuesday afternoon. Miss Larson had resided in Janesville for twenty-five years and was widely known as a nurse. For more than a year she had suffered with consumption which disease was the cause of her demise.

Funeral of B. H. Gardiner.

The remains of Benjamin H. Gardiner were buried in the cemetery at Emerald Grove Sunday afternoon. Rev. S. P. Wilder of the Congregational church, conducted the funeral services, which were held at the home of the bereaved parents, 51 Ruger avenue, at 2 o'clock, he being assisted by the church choir. There was a large attendance.

Louis Wachlin

Louis Wachlin died at the home of his son, August Wachlin, in the town of Harmony, Saturday evening, aged twenty-nine years. He leaves four children. The funeral will be held from the home of his son, in the town of Harmony, Tuesday at 2 p. m.

300 Pcs New Laces.

We have got today in our Lace Stock the Greatest Line of Laces ever brought to this city. In addition to our regular stock we have today added 300 new pieces to our line. This last lot comprises the popular priced goods from 10c to \$1 per yard.

The prices of these new laces will surprise you. We can offer you laces at 25c that a month ago you would have thought cheap at 50c.

Fans = =

We have just placed on sale 1000 New Fans ranging in price from 5c to \$5 each. Come in and see what values you can get in this line. The prices on Fans this summer are about half what they were last summer. For \$1 you can buy a fan that a year ago would have paid \$2 for. Many of these fine fans have the beautifully marked Dresden Sticks.

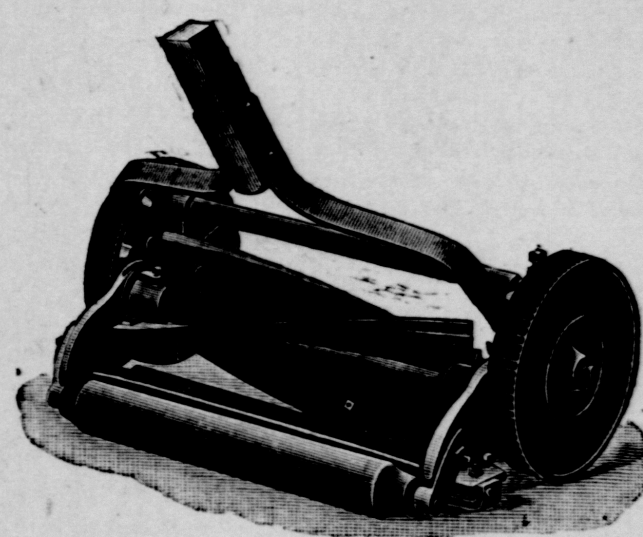

Parasols = =

For three days past we have had one of our large windows full of new parasols and the way the ladies are buying them prove that the styles and prices are correct. Come and select your summer parasol while the stock is complete.

SIX KINDS OF A HOG.

Railroad Nuisances Which Come with the Warm Weather.

"The car hog is more and more in evidence every day," said a car conductor the other day to a New York World man. "The warm weather develops traits that have been dormant with the winter. I have counted six different varieties of the breed in a week. I used to be a raiser of stock in more prosperous days and I'm a good judge. The most common sort is that of the fellow who occupies more room than he needs; never sees that he could make room for anybody and is evidently the same when he is at home. I'll bet he's the man who gets the morning paper first, reads it to himself, gives no one else a chance and carries it down town in his pocket. Then there's the fellow who crosses his legs and when any one seeks to pass simply turns his foot sideways, so that twice as much dirt is rubbed off on a woman's dress and he gets half a shine for nothing. If a bigger man stands still and glares at him he will unfold his legs, but only then. This is the same animal who likes to stretch out in cross seats on the 'L' and clean his boots on the edge of the seat. The third of the species is less bold than his brothers. He is the chap who, when some one gets up, leaving a seat vacant, although there's a tired woman maybe next to him, plumps into the vacant spot, for she has had her back turned and the opportunity was—and always is—in fact, never neglected by him. The fourth sort is the rooster who reads another man's paper over his shoulder. I saw one the other day who was so interested in one article that he didn't see that the man who held the paper was furtively and amusedly regarding him. The fact was brought to his attention, however, by the paper being pushed in front of his face and then withdrawn, and when he looked up a dozen smiling faces made his turn fairly sailow. The fifth is really only a pig. He's not grown, but thinks he is. His nose—that's not the word but it will do—is reticulate, and the little bristles under it are carefully cared for. He likes to crowd close to a pretty girl and stare at her with a yearning look. If he sits opposite her his eyes rarely wander from hers. I saw one young woman stare at the feet of one of that sort for five minutes. He pulled them back and fidgeted them about, finally resting upon his toes. She kept right on staring and he became very uncomfortable. I'm told that's a sure remedy. He finally got out on the platform. The last of the railroad hogs I know, although there may be others, is the one who opens his newspaper so as to shut out the view of those on either side of him. If he'd fold it down the center of the page—but, pshaw, he won't."

WOMEN'S RIGHTS TO THE END.

A Florida Girl, Denies Men Even the Privilege of Burying Her.

Woman's rights in Florida are not believed by the average northerner to flourish, says the New York World. The sunny south is supposed to produce tender, clinging women, who like the oak and vine figure and position. But Miss Bertha Rose, who recently died at Clermont, Fla., carried her idea of independence further than any other suffragist on record. Miss Rose was the organizer of a woman's club. The chief doctrine of the organization was that no member should ever ask any man to do for her what she might do for herself. Not long since the founder of the club felt ill and it soon became apparent that she could not recover. Thereupon the ardent "woman's-righter," faithful to her principles even in death, sent for the members of her club and told them how it would gratify her to know that even at her funeral the teachings of the club were observed to the letter. The young women promised to fulfill Miss Rose's wishes and when she died they performed all the services usually attended to by an undertaker. At the funeral the club women acted as pallbearers. The simple services at the church were conducted by leaders of the club, and at Oaklawn cemetery women's hands lowered the coffin to its last resting place. Then the grave was filled with earth by the young women and Miss Rose's dying wish was fulfilled. The only man who had anything to do with the funeral was the driver of the hearse.

Why He Changed His Mind.

"Some persons," said a well-known detective, "say it is wrong to arrest a man we know to be a criminal simply because he is apt to break the law. I had a friend who was very strongly opposed to this custom and who used to talk a great deal about liberty, the pursuit of happiness and constitutional rights. He was having his shoes blackened at a corner stand one day, when a young fellow ran from the saloon on the corner, grabbed my friend's watch and ran away with it. He learned that the fellow was well-known in the neighborhood as a thief and that he had been in prison several times. When my friend came to me to have me try to catch the thief and recover his watch I told him I would do my best and asked him if he did not think it would not have been better had this well-known thief been locked up, so that he could not be placed in temptation's way. He just looked at me and smiled, but I know he has changed his mind, and that he now believes that any man who ever stole a shoestring should be imprisoned for life."—Ex.

Had Distinguished Prisoners.

Samuel Staples, who lately died in Concord, Mass., numbered Emerson, Thoreau, Alcott and Bull, the inventor of the Concord grape, among his friends. He was at one time the town jailer, and he once had Alcott and Thoreau for prisoners, the former for a few hours, the latter for a night. Alcott's offense was the non-payment of a small tax debt, which he refused to pay. "I never heard a man talk homelier," said Mr. Staples.

Where Manners Are Sorely Tested.

"No, women are not the mannerless sex," said Hobbles, sagely. "Just look at the way men rush to get out of an elevator." "Humph!" said his friend, who was a misogynist and therefore unreliable, anyway. "I guess you never saw a group of women when they boarded a cable car with only one vacant seat, did you?"

SHOOTS WITH GREAT FORCE.

Armor Plate Smashed by a Ball from a Thirteen-Inch Gun.

The thirteen-inch gun was fired at an 18-inch Carnegie plate last week at Indian Head to secure a comparison of the damage created by its 1,100-pound projectile and the 850-pound shell of the 12-inch rifle, the object being to demonstrate that the new battleships should be armed with the large guns. May 1 a Holtzer shell from the 12-inch gun was fired at the same plate that was used to-day, with a muzzle velocity of 1,926 feet per second, and a striking energy of 21,885 foot tons and had cracked the plate from top to bottom but had destroyed but one of its twenty-six armor bolts, the projectile penetrating ten inches and then going to pieces, its point welding into the plate. This shot had been fired with a velocity corresponding to the maximum striking velocity projectile from the 12-inch gun at 1,300 yards range, which is estimated to be about the distance which would probably be chosen by battleships in action. The same conditions of velocity at the 1,500 yards distance were observed with the 13-inch gun, the initial velocity to its 1,100-pound Wheeler sterling solid steel shot being 1,942 feet per second, or eighteen feet greater than in the case of the 12-inch gun, but the striking energy reached the enormous figure of 28,800 foot tons. It struck in the right half, breaking it in four pieces, itself in the sandbank behind. The test clearly demonstrated the superiority of the 13-inch gun as a weapon.

A COUNTRY LEGEND.

How the Buckets Were in the Maple Sugar Bush.

Once in the maple sugar days of spring a farmer sent his Celtic hired man down into the sap bush as ambassador, with full power to ascertain and report how the sap was running. Accordingly the Celtic hired man, who was an Irishman, went down into the sap bush. Into each maple tree was driven an iron spile, and out through the hollow shell of this ran the sap, falling drop by drop and sudden gushes into the pails set beneath.

"Click, slop, the sugar maple drips," says the poet.

Now from some maple trees the sap will run more copiously than from others, and whether this is because the first answer more joyously to the call of spring, or because the last are more scrupulous about entering into a conspiracy with the farmer to produce fine Vermont sugar while growing in Ohio, the naturalists and moralists disagree; but however this may be, the trees differ widely in their rate of flow. So the Irish man found it.

"Was you down to the sugar bush?"

"Well, sor, some av the buckets are only half-full, and some are three-quarters full, but some av them do be full and some runnin' over; on an average, I guess, they do be about all full."

LADIES' POCKETS.

One Stout Woman Finds Them Troublesome in a Street Car.

If the present style of ladies' pockets is not promptly altered it may lead to yet more embarrassing results than occurred in the case of a lady passenger on a Wells street car this morning, says the Chicago Dispatch. The lady in question was fat and plethoric. The pocket in her dress was placed well to the rear. Standing up it must have required considerable effort on her part to extract her purse from it. In a sitting attitude the feat was rendered necessarily still more difficult of accomplishment. This amiable and well intentioned female boarded the car at its entrance to the tunnel, and as the vehicle plunged northward she made a vigorous attempt to extract her purse from the pocket of her dress. The half dozen or so of her fellow travelers watched the proceedings with much interest and the conductor, who had taken a stand before her, lost patience and started off to collect the other fares. As the car proceeded through the length of the tunnel he passed her once more and went out on the back platform. The lady still kept up those mysterious dives into the folds of her voluminous garment.

Bear Catching.

An original and unique device is in use with the Esquimaux for hunting and killing the polar bear. Knowing the bear to be fond of blubber, they take a piece of it as large as a man's fist, and after letting it freeze, hollow out the center sufficiently to admit a strip of whalebone coiled into a spring. This is covered with more blubber, and the whole again frozen. Dressing themselves to look like seals, the bear's favorite food, the hunters take several of these frozen balls and start out. When a bear is discovered they approach near enough for him to see them. As he begins to creep stealthily toward them they slowly retreat, dropping a number of the balls in such a way that the bear in following them must surely come upon the balls. Bruin, seeing these delicate morsels, swallows them whole, and continues his stealthy chase of the supposed seals. But he does not progress far before the blubber melts and releases the whalebone springs. These new "works" in his internal economy soon puts him in such agony that he rolls and tumbles upon the ice and becomes an easy victim to the weapons of the hunters.

The Single-Thought Business.

A tear clung for an instant to her curving lash. Her lip quivered.

"I have quarreled with my husband," she faltered.

"I thought you were two with a single thought?"

"That was just the trouble to use it for millinery work."

All of which goes to further how foolish it is to get a second thought.—Detroit

For Her Color.

It was a great event for Daisy when her little sister was born. Her delight was unbounded. At the same time she felt a great increase of age and dignity, and announced to her mamma that she no longer wished to be called Daisy, but by her own name—Isabel.

"We called you Daisy when you were the baby," said mamma, "because you were so fair and sweet that you reminded us of a daisy. Can you not think of some pretty flower that your little sister resembles?"

Daisy meditated for some time, and then gravely replied:

"I think we might call her Currant."

"This man Lobbs is one of the luckiest fellows I know of. You heard of his arm being blown off last week in that explosion?"

"Yes, but there is nothing lucky about that."

"It was his right arm, you know."

"Well, what of that?"

"Why, he is left-handed."—Boston Globe.

Underhanded.

"I thought you didn't like Cadsby?" said the friend of the literary critic.

"I don't like him."

"But you said his novel was remarkable for its lofty moral tone; for its lack of anything that could be construed as indecent."

"Yes. I did that to spoil the sale of it."—Washington Star.

Simply Heroic.

"Do you think, sir," said the girl's mother, "that you have the patience and forbearance to be a kind husband?"

"Madam," replied the young man in earnest tones, "I can put a 14½ stand-up collar on a No. 15 shirt without saying a single strong word."

And she consented to the match at once.—Chicago Record.

Would Not Work.

Underhill—Doctor, how can sleeplessness be cured?

Doctor—Well, the patient should count slowly, and in a meditative manner, five hundred, and then—

Underhill—That's all very nice, doctor, but the baby can't count.—Pearson's Weekly.

Estimating the Visible Quantity.

His Sister (parading in her new gown)—Guess how much this ball dress cost?

He (eying her critically)—Well, supposing that the material is worth fifteen dollars a yard, I should guess it cost about fifty-nine cents.—Chicago Record.

Her Luck.

Flo—Isn't Ada a lucky girl to get such a wealthy man?

Helen—How do you know he's so wealthy?

Flo—Because she is going to marry him.—Brooklyn Life.

She Wouldn't Risk It.

Dr. Texter—Why doesn't your husband come to church, Mrs. Goodworks?

Mrs. Goodworks—Well, he's a somnambulist, and I don't want to take any chances with him, so I make him stay at home.—Brooklyn Eagle.

The Bitter Bit.

Stranger (entering)—Can I get a bite at this hotel?

Stranger (departing)—I guess you can. I staid there last night, and got several of them.—Texas Siftings.

Creatures of Habit.

"You became fascinated with bicycling?"

"Oh, yes; after I once got in the habit of it," she rejoined, glancing at her bloomers.—Puck.

A Clever One.

Daisy—Did the count say he loved you?

Madge—Oh, fiddlesticks! no. That's why I accepted him. He was so honest about it.—N. Y. World.

SACRIFICE OF PUBLIC OPINION.

He Wanted to Come Back to Town So He Could Eat in Peace.

He was a florid Englishman, young and aristocratic in his manners. His clothes, however, betrayed a very western origin, and his boots showed that for a long time he had been in an agricultural vicinity.

"Yes," he said, "I have a farm out in Minnesota and I work hard myself, although I am what you might call very well off. I know that the only way to look after my interests is to look after them myself, and I get up at 4 o'clock in the morning and dig around and see that the plowmen aren't asleep in the furrows or anything like that."

"It feels good to get back to civilization, though. It isn't the theaters or the pretty girls or the shops that I like, but it is one feature about city life which you'd never guess. It is the only thing that makes me want to get away from the farm, and that is that I can have my meals either with refined people or by myself. Out in Minnesota on farms they have the theory that a workman is as good as his master and a sight better. As a result the farmer is compelled to eat his meals with his hands, and I can tell you that he sees some great feats in sword swallowing, knife-licking and that sort of thing. When I first went to Minnesota I wanted to dine by myself, but the people in the vicinity almost wanted to lynch me. They said they didn't want the introduction of a feudal system all the town of Scappleborough, and all the workmen wanted to leave. I simply had to surrender, and now I eat my meals at a table with a lot of fellows who have their hats on, and who take plugs of tobacco out of their mouths and place them on the sides of their plates while they eat. I can never get used to it, however long I live there, and I never really have an appetite unless I am away from home. To-night I leave for my farm. That makes three dinners between this and a return to my excellent friends who eat with their whole faces and pour gravy down each other's backs at their meals by way of horse-play."—Ex.

THE BABY'S CIRCUS.

The Ladies Had a Stirring Time in Steering Across the Street.

They were rushing the baby cab over the crossing, trying to get out of the way of an electric car, and colliding with a few inferior things, such as express wagons and bicycles, when the cab ran into a fruit cart pushed by a Neapolitan, and instantly it was over-set and its contents dumped into the street under an invoice of bananas, says the Detroit Free Press.

"Mercy, goodness!" shrieked the young mother, who had been trundling the cab, "there goes that lovely afghan I've been working to get done all this blessed spring!"

"My satchel!" screamed the elderly lady. "My purse is in it and my eyes—"

"No, I don't think I'll take it. I never did care much for game, anyway."—Truth.

Somebody did find it, and the afghan was handed back not much the worse for its dust-bath, when the mother again shrieked:

"The baby's pillow isn't here. It had a lace cover on, run with blue ribbons. Oh, dear! Oh, dear!"

The pillow was rescued in bad shape from under the banana cart. After it was dusted and shaken out the two women looked over their possessions, and the elderly one counted the money in her purse and found it all right.

"Now, let's get out of this crowd. Have you got everything, Mollie?"

"I guess so," said the young mother as she wheeled the cab to the sidewalk; "there's the afghan and your satchel, and the pillow—why, mother, I clean forgot—where's the baby?"

Then another woman volunteered the information that another woman had picked up the baby and carried it into a near-by store, and there it was found, smiling contentedly on its new friend, and at last the little procession was re-organized and went its way.

You Don't Have to Swear Off.

says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one, a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by E. B. Heimstreet. No cure, no pay. Book free. Sterling Remedy Co., New York or Chicago.

Mother Nature, Ever Frugal.

In beneficence to mankind, has given birth to one which, developed by art, has been prodigal in health, yielding benefits to the race. No voyager, sea captain, commercial traveler or tourist seeking pleasure and health, should fail to be self-provided with this grand botanic restorative and preventive, Hostetter's Stomach Bitters, which counteracts the effects of malarious air and brackish water, unwholesome or unwonted diet, exposure, the fatigue of travel, and the disturbance of the stomach caused by rough weather at sea, and sometimes by railway traveling over a rough road bed. Mariners, miners and western pioneers bear concurrent evidence to its defensive and reparative influence. Cills and fever, rheumatism, inactivity of the kidneys, biliousness, dyspepsia and nervousness are all relieved by its incomparable fine alterative, rectifying and invigorant, which physicians highly commend.

NOW, THE TIME TO MAKE MONEY.

Last month I cleared, after paying all expenses, \$235.35; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady who can wash and dry her dishes can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes:

I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed. I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure. D. Stevens.

A Dramatic Triumph at Last.

Lobbylounge—How was the play last night?

Firstnight—Wonderful! Most artistic and dramatic production seen in years. Held the audience spell-bound from first to last. Why, sir, in some of the thrilling situations there were times when not a sound could be heard but the hard breathing of Othello, the suppressed sobs of Desdemona and the conversation in the boxes.—N. Y. Weekly.

Toughened.

"Say," said the deputy, "I put No. 711 on the treadmill eight hours ago as a punishment, and I'll be dinged if he ain't goin' on just as chipper and happy as can be."

"Why, of course," said the prison warden, in tones of disgust. "Don't you know the feller was sent here for bicycle stealing? That sort of thing is right in his line."—Indianapolis Journal.

If the Baby Is Cutting Teeth.

BRIEF BITS OF LOCAL NEWS

KEEP people away? An impossibility; not as long as we are selling such fine makes of shoes at 50 cents on the dollar. We like to have every person contemplating buying a pair of shoes, to go around, examine everything in the town, and if there is a single place you can do as well, buy there. We have people come to us every day, who have done this, and they buy our goods. Becker & Woodruff.

No trouble to see good buggies this year. We are glad so many other makes are in this market as it gives the buyer a chance to see the difference between our make and the others. When a comparison is made we always sell. Wisconsin Carriage Top Co.

BARKING dogs never bite. We don't pay any attention to people who are spoiling for a scrap. We devote our entire efforts to selling the North stock. We have no time to quarrel with competitors who are feeling sore over our success. Brown Bros. & Lincoln.

ALTHOUGH we haven't a \$50,000 stock, we have an assortment of shoes that is as nice as ever shown in any town. We have deducted the profit from every pair, and are meeting the prices on old shopworn goods, with our nice new shoes. Lloyd & Son.

We sold six buggies decoration day and thirty-one during the week. We have never been able to keep our full force running so late in the season. The only reason we can give is that a better class of buggies are in demand. Wisconsin Carriage Top Co.

We have 5, 5½, 6 and 6½ in gents' patent leather shoes. We will fit you out, for think of it \$1.50. They are most all made by that great Banister. Pare your corns and we will save you two or three dollars on those patent leathers. Brown Bros. & Lincoln.

No use to buy old out of date shoes when you can get the best there is direct from the factory and never offered for sale in some other town and refused, at as low price as such plunder. Lloyd & Son.

ALL shoes sold by us are guaranteed. We have no temporary stock, bought for quick sales, which if made will react. We are here to stay in business and will treat you so you will return. Lloyd & Son.

SOMETHING new for tomorrow at Bort, Bailey & Co's. See large advertisement, but we guess everybody reads it, as it would seem that everybody came in here Saturday and Sunday night.

No better butter is made than Northern Dairy and we are selling it at 16 cents a pound, two cents less than anyone else sells it for and much better butter. Nolan Bros.

DID you notice the Albemarle Stan-hopes on the streets last evening? They are easily detected because there is no buggy like them made by Wisconsin Carriage Top Co.

ITS right next to the Grand Hotel that the best butter is being sold for 16 cents a pound, and Burbank potatoes at 65 cents a bushel. Nolan Bros.

IT leaves the skin in a much nicer shape than any other soap ever offered. It's equal is not known. Ask for Copco soap and you have it. Prentice & Evenson.

JUST a little better value than can be found in the city at the prices are our ladies' 15, 20 and 25 cent black silk mitts. T. P. Burns.

BEFORE you take a bath tonight step into Prentice & Evenson's and get a bar of that fine bath soap—Copco.

AT 15, 20 and 25 cents we furnish a little better black silk mitt, than can be found elsewhere in the city. T. P. Burns.

SPECIAL prices on cheese at Dunn Bros. this week. All the fine lines on hand to introduce.

ALL the fine cheese that is made can be found at Dunn Bros.

GOOD goods will always find buyers. Just so with our present stock. We are selling a class of shoes at 50 cents on the dollar of the factory cost that causes many a competitor to lay

awake nights and try and conceive some way to meet us, but they can't do it, when such makes as Banister, Nettleton, Strong & Carroll and Schwab Bros. go at half price. Customers are sure to come in. We proved this assertion last Saturday. Becker & Woodruff.

WE have tried every bath soap known and we found none to equal Copco. It leaves the skin much nicer than any other. Prentice & Evenson. With butter at 16 cents a pound, and Burbank potatoes at 65 cents a bushel, no one should go hungry. Nolan Bros.

WE actually save you fifteen cents a bushel on potatoes and two cents a pound on butter. Nolan Bros.

Great Shoe Sale Continues.

The greatest of all great shoe sales ever in this part of the state continues in a way that is most gratifying. The month of May was by great odds the busiest we ever experienced, and June bids fair to be even greater. We had no idea when we opened this \$30,000 stock here that people of southern Wisconsin wanted good shoes so bad. We could just as well get factory cost out of the goods, but as they stand us but 30 cents on the dollar, we prefer to sell them at half factory cost because we then make a very nice profit. Becker & Woodruff.
